To the Members of the Rotary
Club of Surat Riverside, Gujarat, India

Dear fellow Rotarians:

It is with great pleasure that I welcome the Rotary Club of Surat Riverside membership in Rotary International. It is not possible to personally attend all Charter celebrations, but my thoughts and good wishes are with you on this happy occasion. As a new member of Rotary International, you are joining a worldwide organization of over 28,000 clubs linked in the common cause of service to humanity.

Your club's activities will take many forms as your club members investigate the four avenues of service. Take advantage of the established programs of Rotary International and its Foundation to support and further your own efforts. There is a rich tradition that you are now a part of but it will be your club's initiative and fresh perspective that will help to build the future of Rotary International. Be excited by the possibilities that are before you. There are many avenues of service that you can take that will help achieve our goal of world peace and understanding.

The Rotary Club of Surat Riverside's entry into Rotary International is a proud moment for all the clubs in your District and Rotary worldwide. As President of Rotary International, I sincerely welcome you and charge you to **ACT WITH INTEGRITY, SERVE WITH LOVE AND WORK FOR PEACE.**

Sincerely,

Herbert G. Brown
President

MESSAGE FROM DISTRICT GOVERNOR RTN HEMANT DESAI.

Over past few years formation of a new Rotary Club has contributed to a great extent in sustaining the membership growth world wide, in view of both natural drop out and also dropout which are preventable.

The policy of Rotary International with regard to membership growth has always encouraged functioning of a small groups in the form of a Rotary Club in order to accomplish the Rotary's objectives and ideals. This is evident from their very recent decision to lower down the limit of minimum requirement of 25 members at the time of formation of a new club to that of 20.

New club, new members, new Rotarians infuse fresh ideas, energy, Personal & professional resources, knowledge, enthusiasm and help to broaden the service base. This also results in expanding the number of scope of the projects.

If we have to Build The Future of Rotary, we have to build our membership base and give them the Rotary knowledge and explore their potential to the fullest extent.

Your aim should be to double the membership of your club during the Rotary Year 1996/97 and believe me it is possible.

I extend my felicitation to the charter President and Charter members of your club on this once in a life time occasion of charter presentation. You are indeed fortunate to have the gracious presence our own Kalyanbhai the Director of Rotary International as chief guest. My congratulations to Rtn Prafull Bhatt for performing his duties well as G.S.R.

Rtn Hemant Desai.
District Governor. District 3060.

Make up, fact !

What is the resemblance between a train, a lady and a Rotarian ?

A train has to make up when it is late,

a lady is late doing her make up,

while

a Rotarian has to make up before or after missing a regular meeting.
