IN LIGHTER MOMENTS :

A Japanese once visited the USA and called for a Taxi to take him around some place. Whilst on the move, he pulled down the glass of the window and saw a car dash passed him. "Look" he told the driver- "Mitsubishi car, so very fast, made in Japan". They went further and another car sped past them. "Look" he told the driver again, "Honda car, so very fast, made in Japan". The driver was beginning to lose his head by then. They went still further and again the Japanese exclaimed "Look, Toyota car, so very fast, made in Japan". The driver was totally irritated with him by then, when they reached their destination. The Japanese got down and asked the driver "How much?"; the driver looked at him and said "300 \$ Sir". "What" said the Japanese, "please check your meter again". The driver smiled and told him "Meter so very fast sir, made in Japan".
