

## ROTARY SURAT RIVERSIDE

CLUB NO. 31734 ZONE 5 CHARTER DATE : 26-06-1996

ROTARY YEAR 2002-2003

**Bhichai Rattakul**  
R. I. President

**Jatin Bhatt**  
Dist. Governor

**Rtn. Mukund Jariwala**  
President

**Rtn. Ramesh J. Jaitane**  
Bulletin Editor

We meet every Tuesday at 8.30 p.m. at Dr. Bhacca Rotary Hall, Jeevan Bharti, Surat  
All our meets are Dinner meets.

Bulletin Series 07-01-20

### ***Report on events of the last meet***

A gathering of rare sorts. It is really rare to witness such a meet, which is summery collage of many a great events. Half way through this Rotary Year 2002-03 the continuing winter session, on a pleasant evening on the 28<sup>th</sup> January 2002 at Dr.Sarosh Bacca Rotary Hall. It was time to sum-up with a re-look, present feedback, report, share experiences and on and on...

The meet was thrown open with a welcome address by **President Mukund Jariwala**.

Budding Rotarians - RYLA participants **Ms.Parita Vashi** and **Mr.Irfan Doctor** shared their ever-gaining experience at the RYLA camp during December 2002. One thing in common is how Rotary influences and induces a change in a person with all that unshakable confidence to face the exponentially increasing challenges of tomorrow. Rotarians in the making.

**PP Dr.Sunil D'souza** spoke on the achievements the club has made in the past and how our ongoing efforts have yielded awards. He was in all praise for the winning combination of **IPP Jugal Shinglot** and Club **Secretary Rtn.Ankur Marfatia**. **President Elect Dr Ajay** & **President Elect Nominee Siddharth** complimented the Dual team of **Jugal & Ankur**. **President Mukund** in his address complimented IPP Jugal and declared that he would like to keep up the winning habit even in this year. **PDG Prafull Bhat** the **Chief Guest of the evening** gave away the awards for the best President and Secretary and Jugal in his humble and ever smiling gesture acknowledged.

**Cake cutting** followed the award ceremony. **IPP Jugal** along with **Ann Manisha Marfatia** cut the cake and celebrated the awards with the club members.

**Rtn.Dr.Kuldip Desai** informed about a surgical camp in his hospital on 01.02.03 on cataract removal being follow-up of the eye camp at Olpad. Dr.Kuldip also spoke on the possibilities of 'Cataract matching grant'.

Time came for the declaration of the RI Theme for year 2003-04 - 'Lend a Hand'. **PDG Prafull Bhatt** made the announcement. Let us all prepare ourselves for a continual consistent performance in service to mankind without loosing track of the main credo.

Prospective members **Mr. Sharad** & **Mrs Noopur** gave their brief introduction along with their proposer **Dr Ajay Bhardwaj**.

It was **Rtn.Anand Acharya's** turn, now for proposal of vote of thanks. With renewed hugging of **IPP Jugal Shinglot** remembering the past years the meet came to a close.

**Wait - it was not over.....**

**PP Arvind Kumar** could not stop himself and came out sharing his views and experiences working with Jugal. He said he was rejoiced time and again whenever there was an encouraging positive nod from Jugal and said it was the best year so far for our club.

Meeting ended on a good note with singing the National Anthem.

***The presence of past presidents was missed badly***

## FORTHCOMING MEETINGS

**DATE:** 4<sup>th</sup> February 2002, Tuesday

**TIME:** 7 pm onwards

**VENUE:** Rotary Hall, Nanpura

**AGENDA:**

Maiden Installation of Interact Club  
of Umrigar School, Surat

**CHIEF GUEST:** DG Jatin Bhatt

{Dinner will follow after the meeting  
at 8 pm. Regular meet [Fellowship]  
will follow}

Lend a Hand

### *Believe it or not*

*Indian boy in his 12th standard has disproved Einstein's "Theory of Relativity". Shocked? Read on...*

Sudarshan Reddy has theoretically proven the existence of a sub-atomic particle, which can travel at speed greater than that of light, thereby challenging one of the fundamental postulates of the "Theory of Relativity". In his recent research paper submitted to the "Institute of Advanced Physics (IAP)" at Trieste, (Italy) Sudarshan has proved the existence of a class of sub-atomic particles called "leptons", which can travel faster than light. The international physics community has shocked by this discovery. Dr. Massimo Martelli, President of the IAP has this to say about the paper submitted by Sudarshan. After long, careful and critical analysis, I can confidently say that Sudarshan's research paper show tremendous leap in our understanding of physics as his investigation mounts up on "leptons". His work builds substantially on the work of Einstein and other in the field of relativity. When physicists from Princeton University tried to measure Sudarshan's IQ with an IQ-meter (at the American Embassy in Delhi), the meter broke down, simply because it was not calibrated to measure such high IQ. This was reported in Times of India. Prof. Carl Uppsala, Chairman of the Nobel sub-committee for physics has confirmed that Sudarshan has been short listed for the Nobel Prize in physics for the year 2001. Sudarshan, incidentally, is the brother of Madhu Reddy, the Indian whiz kid who developed an operating system superior to Microsoft Windows. We should all be very proud of these boys

### *Understanding RYLA*

Welcome to the Home of the Rotary Youth Leadership Award Program

Rotary International has always recognized the need for development of young leaders in our many Rotary nations. To achieve this, R. I. has adopted the Rotary Youth Leadership Award Program to encourage and assist young people in the development of their leadership skills.

Under the general guidance of the R. I. RYLA committee, most of the 528 Rotary districts in the world sponsor this program, directed by a local district committee to adapt the RYLA program to suit local needs. Some districts conduct the program for high school age youth, others concentrate on the under 30 years old group, some conduct the program as a week-long retreat while others operate the program over a week-end period. Each program, however, is designed to provide lifetime leadership skills for young people, adapted to local needs.

Each RYLA participant is selected by local Rotary Clubs. Therefore, if you would like to participate in the program, or know of someone who should be considered for the program, please communicate directly with your local or nearest Rotary Club. The names and addresses of all clubs can be found at [www.Rotary.org](http://www.Rotary.org).

To everyone who is or has participated as a Rotary leader in this program, "thank you." To everyone who is or has participated as RYLArian, "congratulations" and may you use your acquired skills to the betterment of our world.

To everyone who would like to be a part of this exciting venture, "welcome". Today's leaders were yesterday's youth, Tomorrow's leaders are today's youth.

*Abe Gordon , Chairman RI RYLA 2003 Committee*

Chief Guest PDG  
Prafull Bhatt  
Presenting the  
Best Presidents  
Award to IPP  
Jugal Shinglot at  
the Felicitation  
Function  
Organized on  
28<sup>th</sup> January  
2003

Congratulations IPP JUGAL  
{Best President Awardee}  
& Ann MANISHA on behalf  
of HON SEC ANKUR {Best  
Secretary Awardee} Cutting  
the cake to celebrate the  
Awards

My 26-year old son decided to have a cup of coffee. He took a cup of water and put it in the microwave to heat it up (something that he had done numerous times before). I am not sure how long he set the timer for, but he told me he wanted to bring the water to a boil. When the timer shut the oven off, he removed the cup from the oven.

As he looked into the cup, he noted that the water was not boiling, but instantly the water in the cup "blew up" into his face. The cup remained intact until he threw it out of his hand but all the water had flown out into his face due to the build up of energy. His whole face is

blistered and he has 1st and 2nd degree burns to his face which may leave scarring.

He also may have lost partial sight in his left eye. While at the hospital, the doctor who was attending to him stated that this is fairly common occurrence and water (alone) should never be heated in a microwave oven. If water is heated in this manner, something should be placed in the cup to diffuse the energy such as a wooden stir stick, tea bag, etc. It is however a much safer choice to boil the water in a tea kettle.

Please pass this information on to friends and family.

*By Rtn Dinesh Bachkaniwala*

A man ask the barman in the bar that are those to sitting there are bush and Vajpayee???

The barman says "Yep, thats them." So the guy walks over and says, "Hello, what are you guys doing?"

Bush says, "We're planning world war 3"

Guy says, "Really? What's going to happen?"

Vajpayee says, "Well, we're going to kill 14 million Pakistanis and one bicycle repairman."

The guy exclaimed, "A bicycle repairman?!!!"

Vajpayee turns to Bush and says, " See, I told you no-one would worry about the 14 million Pakistanis!"
